

Visible improvement to fine lines,
skin texture and tone.*

Accelerated healing
after laser treatment.*

The ReGenica difference.

The advanced growth factor potency of ReGenica introduces additional advantages.

- Clean citrus scent
- Light texture, instantly absorbable
- Colorless, shine-free, vanishes into skin

ReGenica[®]
ADVANCED SKIN REJUVENATION

NEXT GENERATION OF GROWTH FACTOR SKINCARE

DAY REPAIR SPF 15

- SPF 15 blocks UVA/UVB rays
- Protects skin with 6 humectants including ceramide 3 and sea kelp extract
- 3 anti-oxidants including vitamins A, C, E and proline, an amino acid

OVERNIGHT REPAIR

- Helps repairs skin with 7 humectants including shea butter, ceramide 3 and sea kelp extract
- 3 anti-oxidants including vitamins A, C, E
- 2 amino acids help enhance cell turnover

FACIAL REJUVENATION COMPLEX POST PROCEDURE

- Fragrance-free, soothing gel for post-procedure
- Protects and calms skin with aloe and glycerin
- Arginine, an amino acid, helps aid in cell turnover

ReGenica[®]
ADVANCED SKIN REJUVENATION

Working skin rejuvenation. cell at a time.

erating cell function means new life
ur skin. While cellular renewal is
esearched, the means to activate it is
antly evolving. Welcome to the latest
ce in skin care science. ReGenica.

Accelerate. Regenerate. Defend.
ighly active repair, that also guards
ainst future damage.

multi-potent mystery.

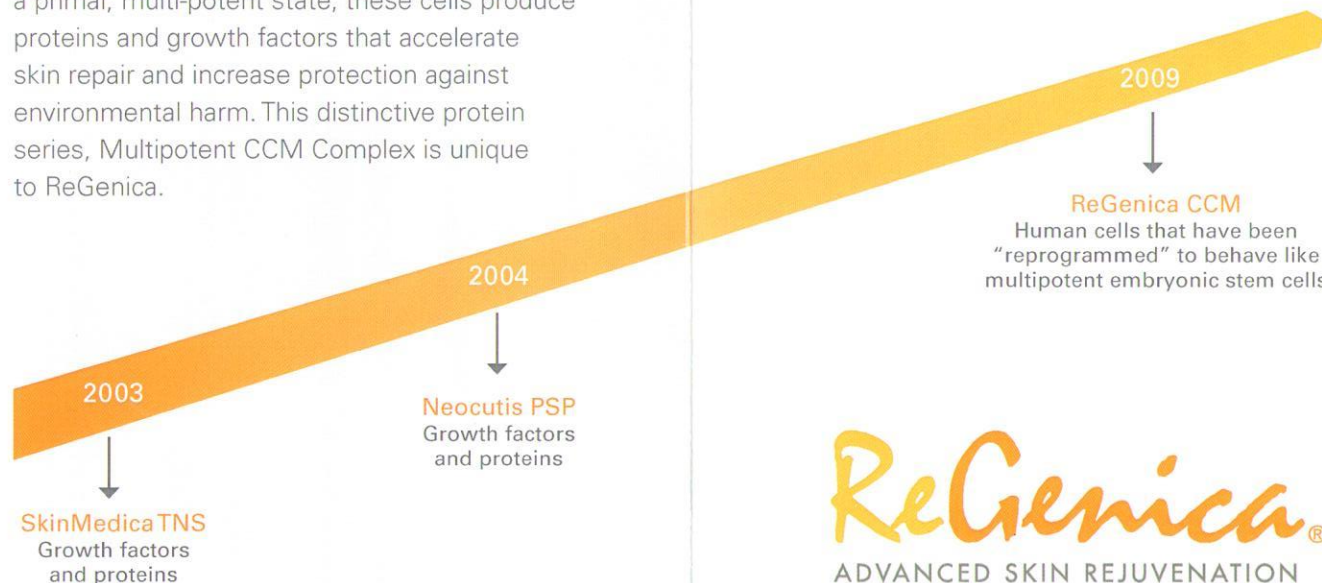

e you are born, skin has the ability
air itself almost miraculously.
yonic tissue contains multi-potent
hich renew and restore at an
ng speed. That accelerated ability
to growth factor proteins produced
ulti-potent cells. Activating certain
roteins not only stimulates skin repair,
help protect against future damage.

Dr. Gail Naughton
World Renowned Regenerative
Medicine Scientist

A breakthrough from the scientist behind growth factor skincare.

Gail K. Naughton, creator of the key ingredient in TNS, (an earlier form of growth factor skincare), has taken her science to a new level. Dr. Naughton's most recent discovery is a proprietary method for inducing ordinary cells to behave like embryonic cells. Transformed to a primal, multi-potent state, these cells produce proteins and growth factors that accelerate skin repair and increase protection against environmental harm. This distinctive protein series, Multipotent CCM Complex is unique to ReGenica.

Not another line. A skin care revolution.

- Dr. Naughton's trademarked growth factor technology is exclusive to ReGenica
- No other product features Multipotent CCM Complex.
- Multipotent CCM Complex is clinically proven to stimulate skin renewal and repair
- Clinically proven to reduce the appearance of fine lines, wrinkles, irregular pigmentation, and roughness
- Published clinical studies demonstrate accelerated healing after laser treatment*
- Patients reported decrease in pore size, increase in moisture, and more radiant skin
